January Bi-monthly Meeting

"Change Management: Getting It Right" with Susan Richards

Friday, January 31

8:30 Continental Breakfast

9:00 - 12:15 Program

Join us to learn how to set your organization on a positive and successful course for change by:

- Developing a change management strategy outline/framework for your project;
- Identifying your change management team members and preparing them for their role on the project;
- Selecting your project sponsors and assessing what they need to know to be effective on the project.

We will discuss how to increase the probability of your projects' success, manage resistance to change and build change competency in the organization. We will utilize the ADKAR methodology (Prosci) to frame the conversation and give you some real-world examples of how to get started and ensure the change sticks.

Interested in Leading a CoP?

We are currently looking for Community of Practice leaders for 3 established groups:

- [Learning & Development](#)
- [External Consulting](#)
- [Leadership Development](#)

Reach out to [Karen Agrait](#), Special Programs Director, if you are interested or have an idea for a new group.

Our CoPs are "self-managing" and programs are planned by the members. CoPs add so much value and can take any form. Meet as infrequently or frequently as you would like. CoP leads help to get the ball rolling, so team up with a colleague and share the lead role!
